PROFESSIONAL EXPERIENCE

Coordination Board Member

present

Mühendis Beyinler Kulübü

- Serving as a Coordination Board Member of the Mühendis Beyinler Club at Doğuş University, contributing to event planning, team organization, and the execution of engineering-focused initiatives.

Committee Member

Mühendis Beyinler Kulübü

- Held a Committee Member role in the Mühendis Beyinler Club, contributing to operational tasks, event support, and collaborative teamwork within the organization.
- Played an active role in the Engineers Talk event, assisting in outreach and coordination efforts to secure a guest speaker.

EDUCATION

Doğuş University | 2023-2028

- Bachelor of Science in Computer Engineering
- Currently pursuing a Bachelor's degree in Computer Engineering at Doğuş University, with a strong academic focus on artificial intelligence and machine learning. Building solid foundations in programming, algorithms, and data-driven problem-solving, while actively exploring modern AI methods and their applications.

CREATIONS

DBB-Chatbot

Website

- Developed a personalized AI Chatbot Backend using FastAPI and integrated it with the DeepSeek API to enable dynamic, real-time responses. Built a modular system structure, including secure environment configuration and custom system prompts. The project is currently in active development and will be expanded with a frontend interface and server deployment.

CERTIFICATES

Artificial Intelligence Summer Camp

Miuul

- Received certification from the Miuul Artificial Intelligence Summer Camp after participating in intensive training on ML fundamentals, practical coding exercises, and end-to-end model building.

Python

Turkcell Gelecegin Yazarları

- Completed extensive training from foundational principles through advanced application development. Proficient in Object-Oriented Programming (OOP), complex data structures, and utilizing specialized libraries for efficient, real-world solutions.

LANGUAGES

Turkish: Native

English: B2 – Upper Intermediate
